

Curative Resources for Providers

Welcome to Curative, a new kind of health plan with no copays, no deductibles and no out-of-pocket costs, including many generic, brand name and specialty medications.* The full cost-transparency not only means better access to care for your patients, but more time for you to provide high-quality care that you saved from bill collections.

Need help or have a question? We're here to make health insurance coverage easy. Please reference the key points of contacts for each department.

**Members must complete a Baseline Visit with Curative in the first 120 days of enrollment to qualify for \$0 copays and deductibles.*
